Seminars/Conferences

IAAS
INTERNATIONAL CONFERENCE FOR
YOUTH IN AGRICULTURE
ICYA
Giving voice to future agricultural leaders

KU LEUVEN

4 Days
100+ students
Lectures & International Debate
Trainings Workshops

#ICYA2017

1) **Refugee Crisis** – How can the field of agriculture help with the integration of refugees?

2) **Women in Agriculture** – Gender Equality, is agriculture still a “grey zone”?

3) **Food Waste** – From overconsumption to hunger

4) **VillageConceptProject** – How can students help small local communities?

5) **Urban Farming** – Urban agriculture, a way to build more peaceful societies.

6) **New Agri-Generation** – Raising awareness about food production between small children

AND RELATED SCIENCES

Women In Agriculture

WOMEN COMPRISE AN AVERAGE OF **43 PERCENT** OF THE AGRICULTURAL LABOUR FORCE IN DEVELOPING COUNTRIES

Women In Agriculture Project → As an Association we believe that it is critical to ensure gender balance in the field of Agriculture and recognize women's participation as integral to sustainable development

Ideas:

- Scientific approach → conducting a survey
- Interviews with famous women in agriculture
- Success stories about YOUNG PEOPLE IN AGRICULTURE
- Awareness day
- Every country presents the situation in their country
- Public debate (social media live stream)
- Showing different aspects of women in agriculture!

SocIAAS

Reaching out to the community!

SocIAAS → We as an association want to create projects with a social impact to give back to the community. This also allows a completely new aspect of exchanging knowledge.

Village concept project

INTERNATIONAL ASSOCIATION OF STUDENTS IN AGRICULTURAL
AND RELATED SCIENCES

No Food Waste project

No Food Waste Project → As we promote the increase of yields produced in farms, we should also raise awareness against Food Wastage so that we successfully fight hunger. We as a student organization decided to take this responsibility.

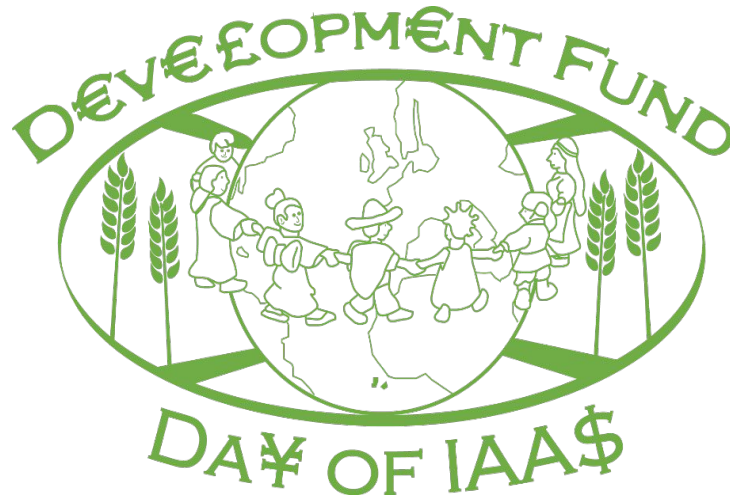

INTERNATIONAL ASSOCIATION OF STUDENTS IN AGRICULTURAL
SCIENCES AND RELATED SCIENCES

Development Fund

Development fund → Provides
scholarships to students from
developing countries to participate in
international meetings

INTERNATIONAL ASSOCIATION OF STUDENTS IN AGRICULTURAL
AND RELATED SCIENCES

THE IAAS EXCHANGE PROGRAM

*International Association of Students in Agricultural and Related Sciences

A promotional poster for the IAAS Exchange Program. It features a central circular logo with a globe and the text 'IAAS EXCHANGE PROGRAM'. The poster is divided into four green triangular sections by white lines. The top-left section shows a greenhouse and says 'Worldwide internships!'. The top-right section says 'Graduate ready for the world'. The bottom-left section lists three categories: 'Ceres farms' with a barn icon, 'Libertas volunteerism' with a hand icon, and 'Archimedes research' with a microscope icon. The bottom-right section shows a smiling woman in a pink hijab holding a blue crate of vegetables. At the bottom, there are statistics: '*50+ countries', '*5 continents', and '*10 000 members'. The website 'www.iaasworld.org/exchange-program' is at the bottom left.

Are you motivated to try to better understand complex systems and search for creative solutions for the current challenges in global warming, climate, limited resources? Do you want to work with people who are looking for and find the way you will find a suitable programme at our Faculty?

In our Campus, around the estate of breeding you will be able to study and conduct research in a green, pleasant and inspiring environment, known itself for a real student town, with 35,000 students over a population of 350,000. It's a charming small city, only 30 minutes drive from Brussels, the capital of Europe.

We will provide you not only with scientific knowledge, but also with management skills and we will motivate you to explore yourself. You will meet a lot of other international students. We are one of the most European and international Universities in our continent with our research and good academic results; university that all year has scientific from the laboratory to the laboratory, which is the best solution to the Microbiome.

If you want to know more, have a further look at our website, or ask for our brochures:
