

How my university will engage with society
through education, research and outreach
to encourage the desired transition to
climate neutrality

The case of Czech University of Life Sciences (CZU) Prague

Commitment in official documents (CZU Strategy 2021+)

Measures for fulfilling specific objective 6.1:

- With the aid of investment activities in connection with investment activity plans, to improve the quality of all infrastructure for all activities at CZU (including dormitories and the Mensa, libraries and school enterprises). When implementing investment (in particular construction) activities, to ensure that they fulfil the priority principles defined in the CZU Vision (mainly to strive to implement intelligent green technologies and environmentally friendly technologies and buildings) and contribute to them so that by 2040, CZU is an emission-neutral university. (Objective of measure 6.1.1: To improve the CZU infrastructure.)

Activities

- Students contests (schola ludus)

CSR - EN / Activities /

Activities

A number of responsible activities and projects are implemented at the Czech University of Life Sciences, and they spread the principles of sustainable development amongst students, employees and the public. Their implementation is often provided by individual faculties and in cooperation with students. These activities include conferences, student competitions, or activities of faculties and their student associations. The portfolio of activities continues to grow. Among other things, the university fulfills the goals it has set in the Social Responsibility Strategy.

CZU Campus Sustainability Challenge

- 2020 - Flowery meadow
- 2020 - Solar Pergola
- 2019 - Freeshop CZU
- 2018 - Edible campus

V4GU Video Competition

The results of the competition will be published on June 23, 2020. Winners will be notified by email and will be able to pick up their awards by the end of June 2021 at Office 405a of the Rector's Office. We kindly ask the winners to agree on specific handover dates with Mrs. Křténová - krténova@rektorat.czu.cz

"We live sustainably at CZU, and we also motivate employees and students in this approach!"

As part of the international cooperation on the V4 Green Universities (V4GU) project, CZU is announcing a video competition to encourage CZU employees and students to take their initiative in climate protection. The videos should motivate others to live healthy, sustainably and eco-friendly.

Waste recycling, zero-waste lifestyle or, for example, second-hand purchases. This may be a daily routine for you, however, by doing so, you are contributing to the fight against climate change.

Show us how you live sustainably and win an Electric bike or other valuable prizes!

Create a video showing sustainability principles you apply in your everyday life on campus or at home. You can share how you buy coffee in your own cup, compost bio-waste, use organic products or anything else. There are no limits to creativity and activities.

To participate in the competition, you have to upload your max 1-minute long video (or short IG stories) to this link - https://zoldegytem.ptc.hu/en/news/v4gu_video_competition. **You can do so until June 7, 2021,** and then the jury will select 10 best videos. The competition is for CZU students, international CZU students and all CZU staff.

You can also share the video on your IG profile, tag @czuvpraze, challenge your friends and motivate others.

And what are the prizes?

- 1st place - Electric bike, Power bank with solar panel, Voucher to CZU shop for 2500 CZK, Book - CZU from 77 sides
- 2nd place - Electric bike, Power bank with solar panel, Book - CZU from 77 sides
- 3rd place - Electric bike, Book - CZU from 77 sides
- 4-10. place - Powerbank with solar panel, Book - CZU from 77 sides
