# Sustainable Development Goals

UPWr ranked high in THE Impact Rankings 2022

**101-200**  
(out of 521 institutions)  
**1st/2nd place in Poland**

**101-200**  
(out of 553 institutions)  
**1st place in Poland**

**401-600**  
(out of 783 institutions)  
**4th place in Poland**

**601-800**  
(out of 1438 institutions)  
**5th-7th place in Poland**

**1st place among agricultural universities in Poland in all ranked SDGs**

## Main objectives (2017-2022)

- create climate and water resilient, healthy and liveable cities by investing in nature-based solutions (NBS)
- enhance biodiversity in cities by creating high quality green spaces and waterways
- enhance citizens' and stakeholders' involvement in the design and delivery of nature-based solutions

## What we did

- community workshops, consultations on space management plans
- creating 7 pocket parks in the city
- 2-year monitoring of green spaces

## Nature Day 2022

- 2022 edition theme: „be eco friendly”
- student scientific clubs related to biodiversity
- city of Wroclaw green zone with campaign on biodiversity (mosquitos in the city)
- workshops on biodiversity for children (bee houses, forest in a jar)
- Park-palace complex in Pawłowice with arboretum and petting zoo
- plant fair

## Nature Week 2021 – remote edition of Nature Day

- free telephone advice and consultations open for wider community
- topics related to biodiversity: animals at home and in the city, all about bees and beekeeping, horticulture
- 5 days, 40 hours of consultations, more than 100 telephone advice and 400 vouchers for extra consultations distributed
