European Biodiversity Partnership

The European biodiversity partnership: history, objectives and main achievements

*Claire Blery – Biodiversa+ Chief Executive Officer, FRB
(FR)*

biodiversa+

European Biodiversity Partnership

What is Biodiversa+ and where do we come from?

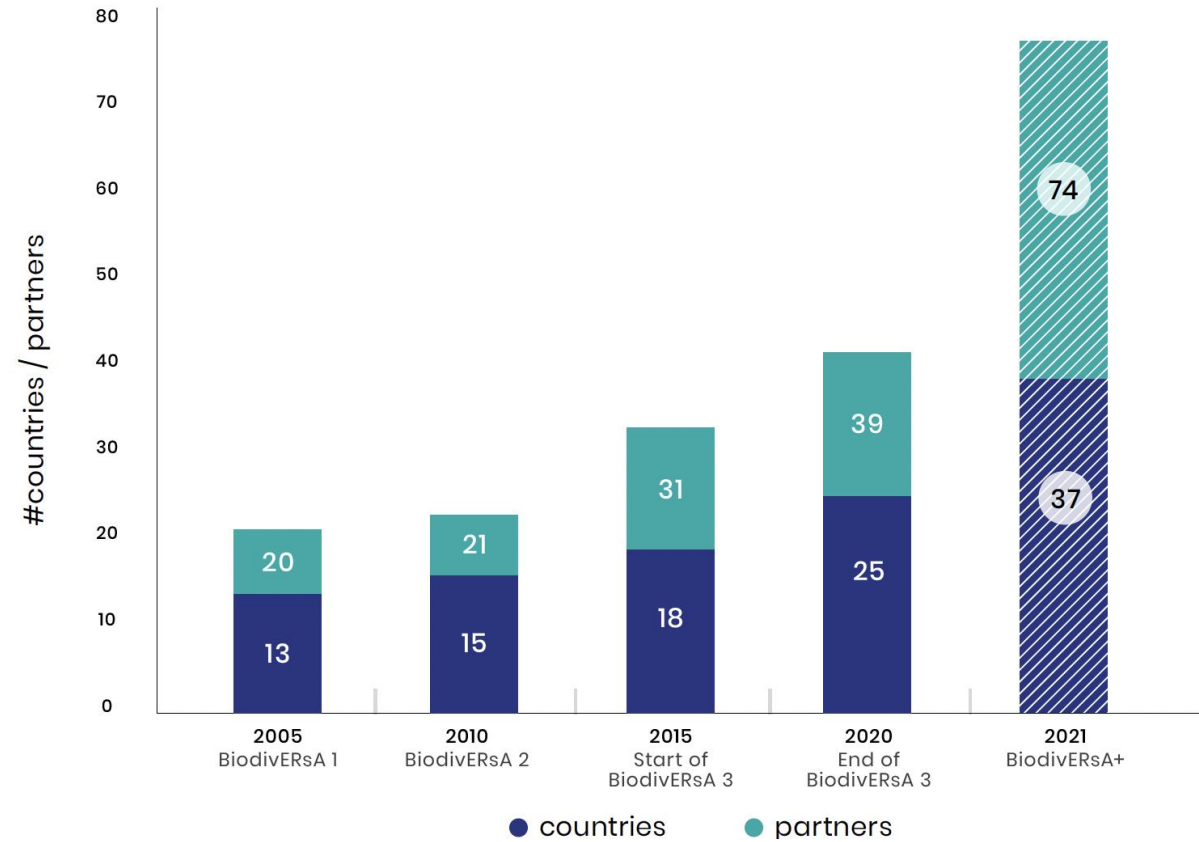

What is Biodiversa+?

- The **European biodiversity Partnership** co-funded by the European Commission under Horizon Europe
- **Supporting excellent research on biodiversity with an impact for policy and society**
- Officially launched on 1 October 2021 for a 7 years duration
- Jointly developed by BiodivERsA and the European Commission (DG Research & Innovation and DG Environment) – **building on the BiodivERsA experience** (2008-2021)

The Biodiversa evolution

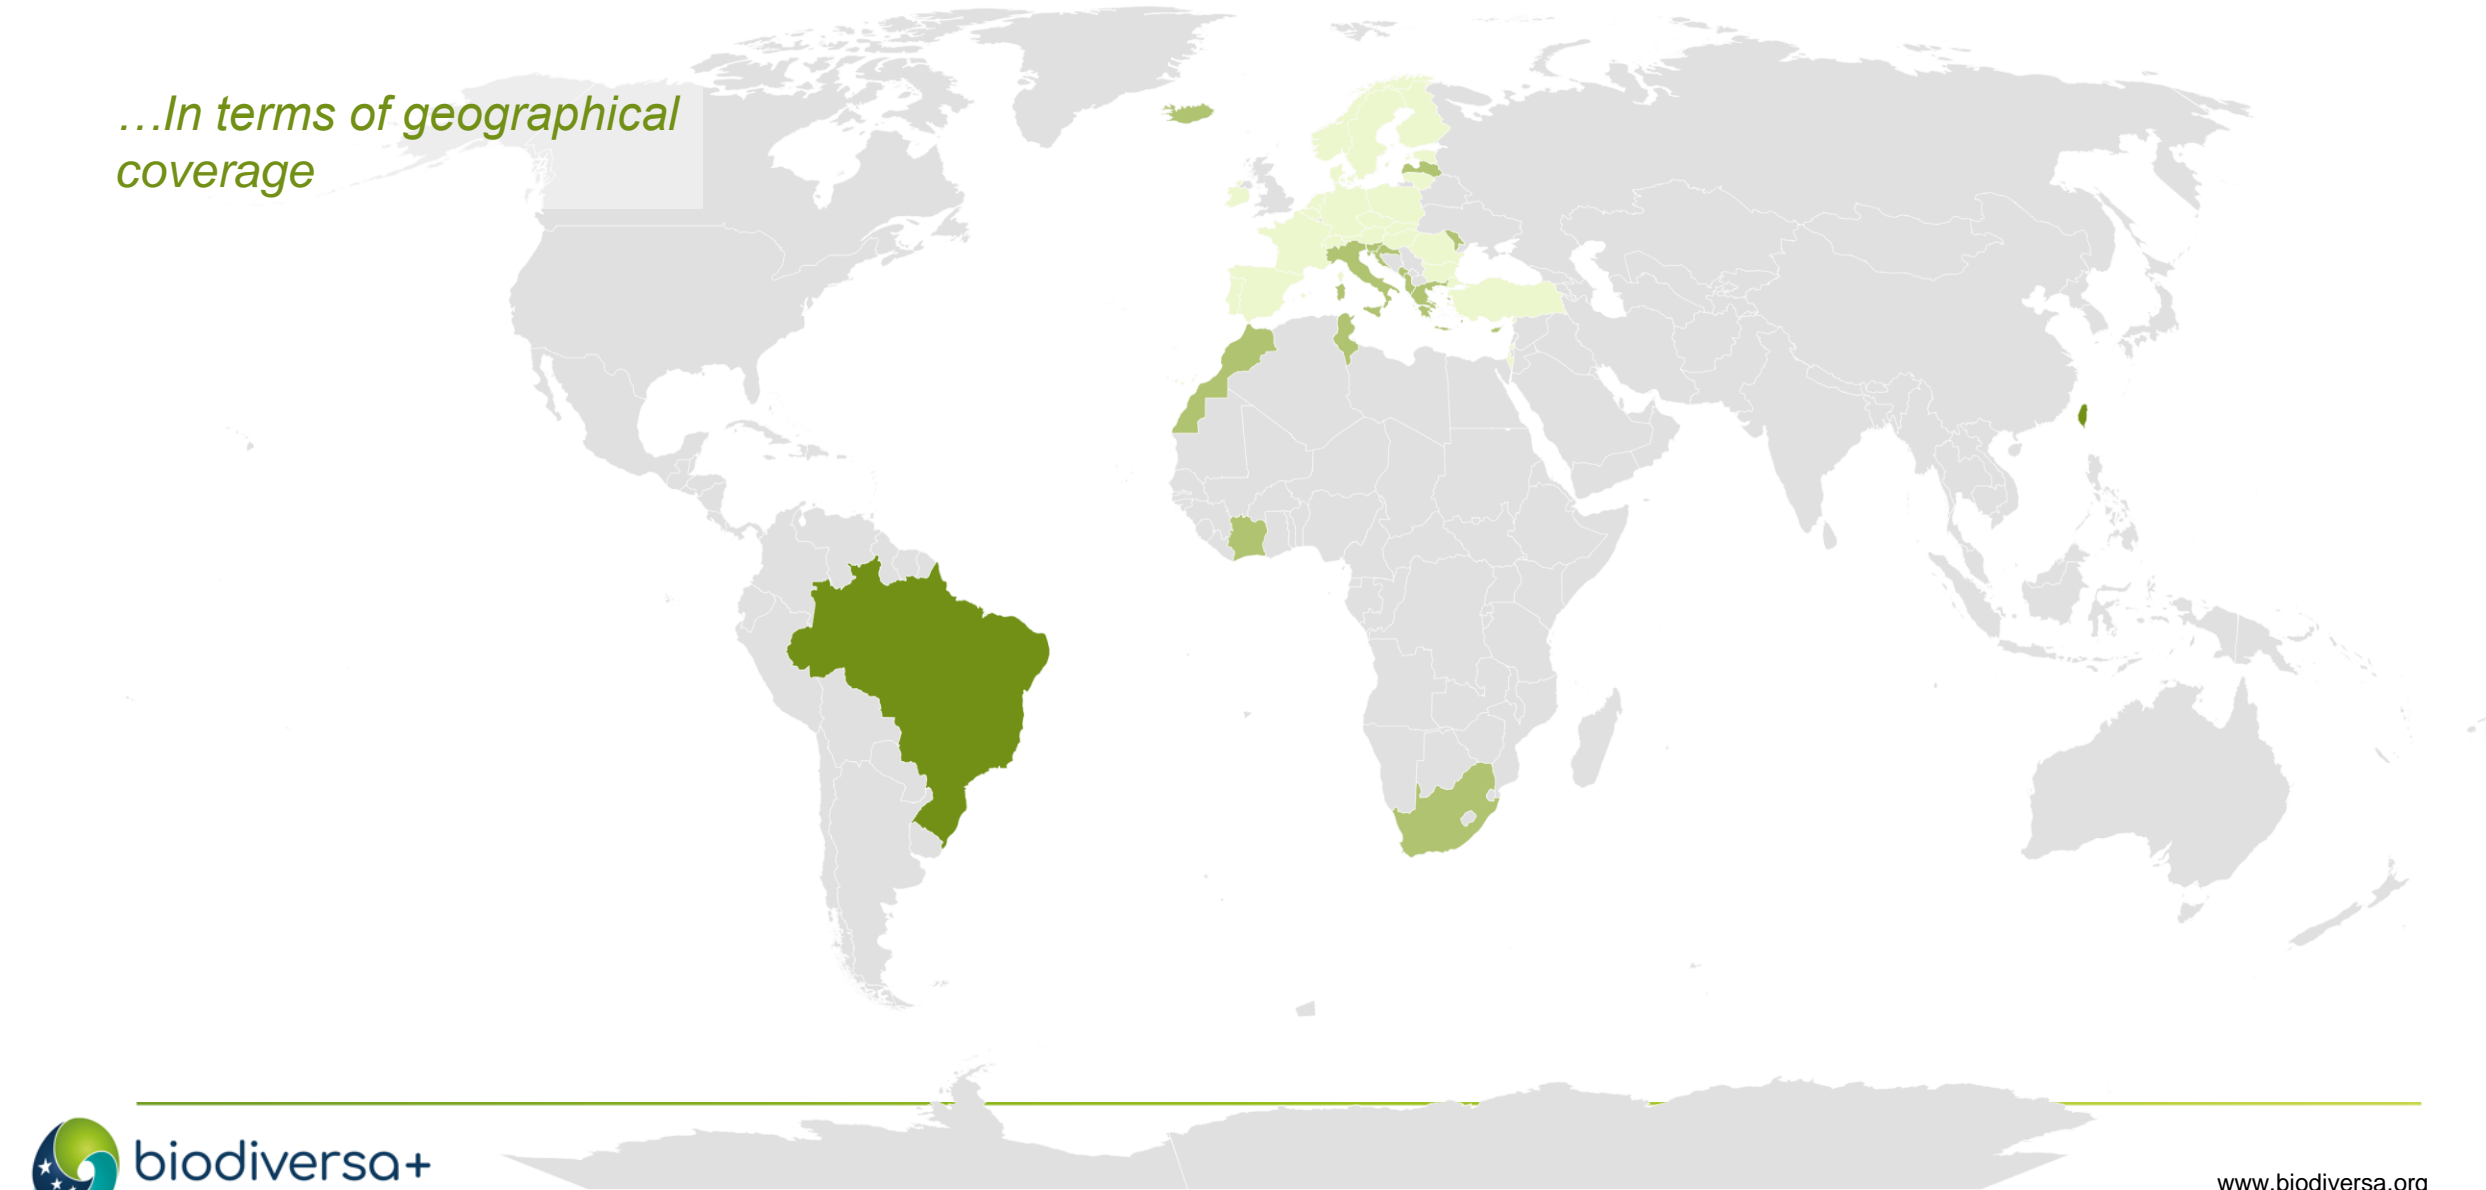

- Biodiversa started in 2005 and has continuously evolved since then...

...In terms of number of partners

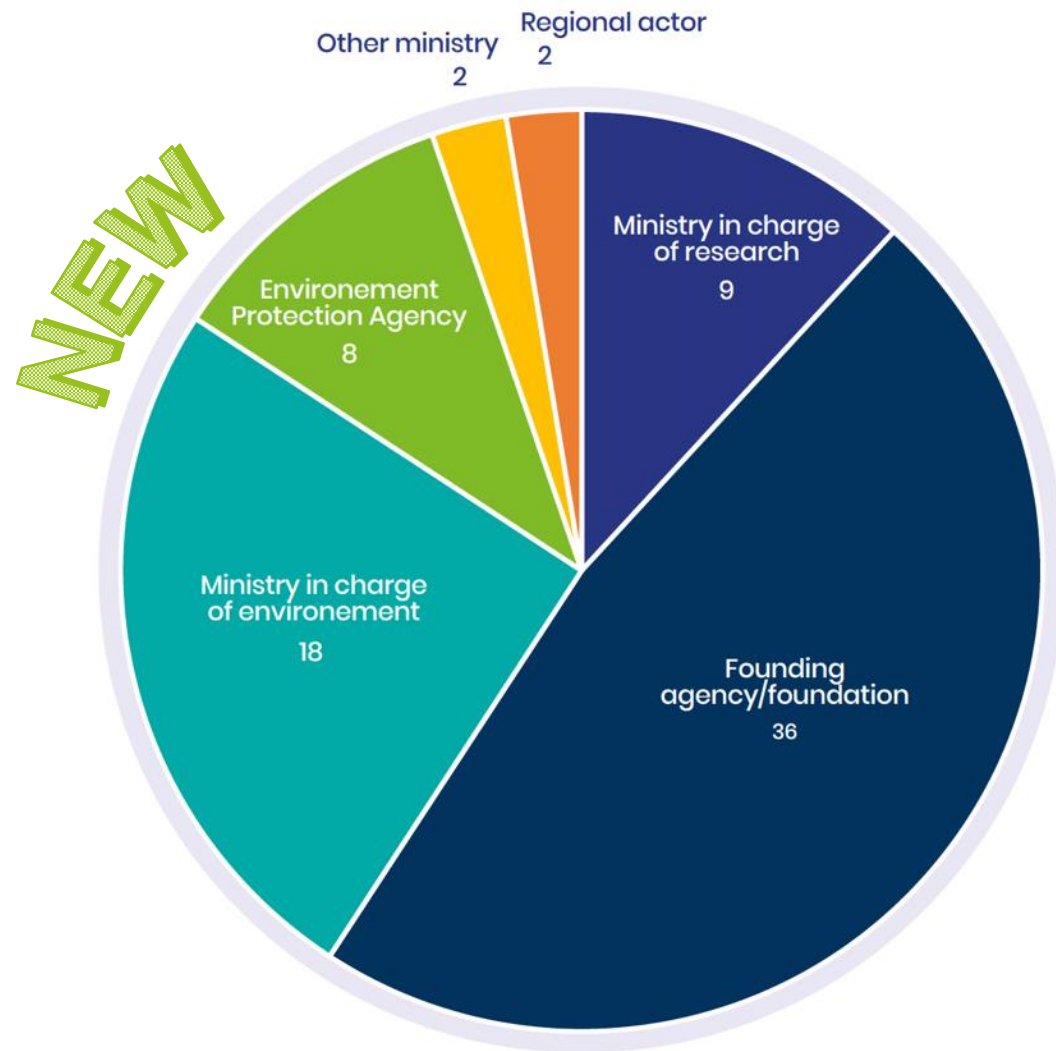

The Biodiversa evolution

...In terms of geographical coverage

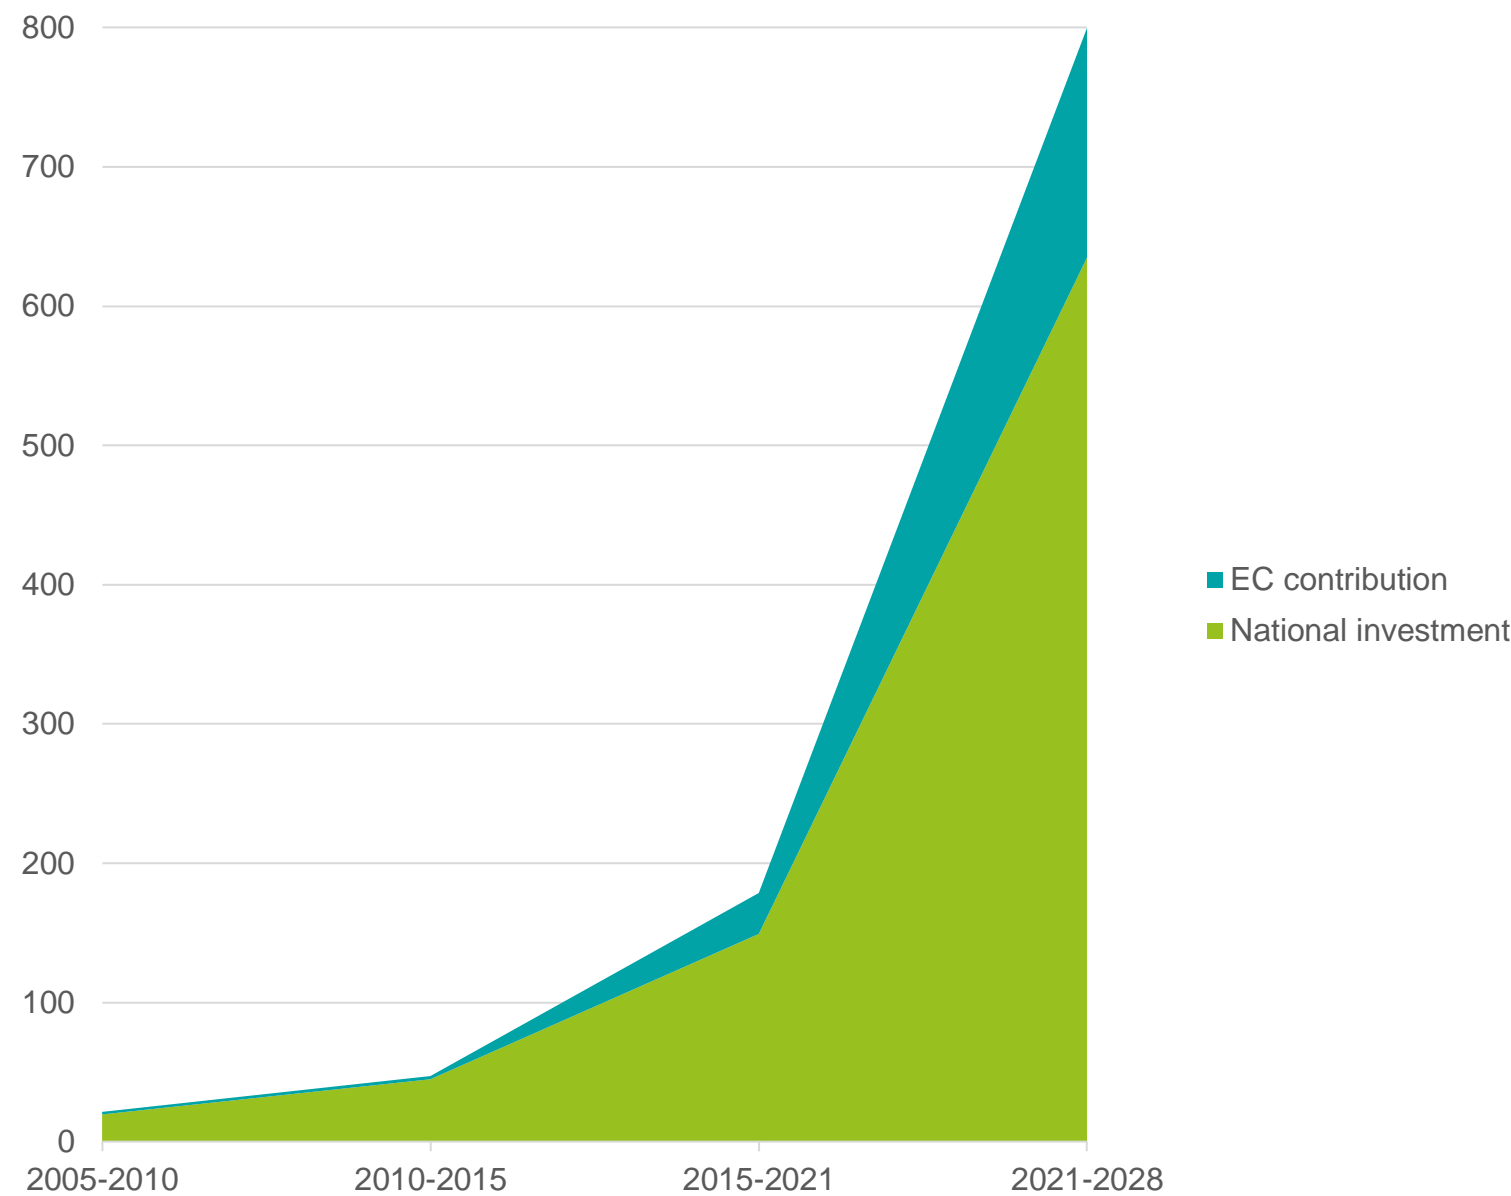

The Biodiversa evolution

...In terms of types of actors engaged

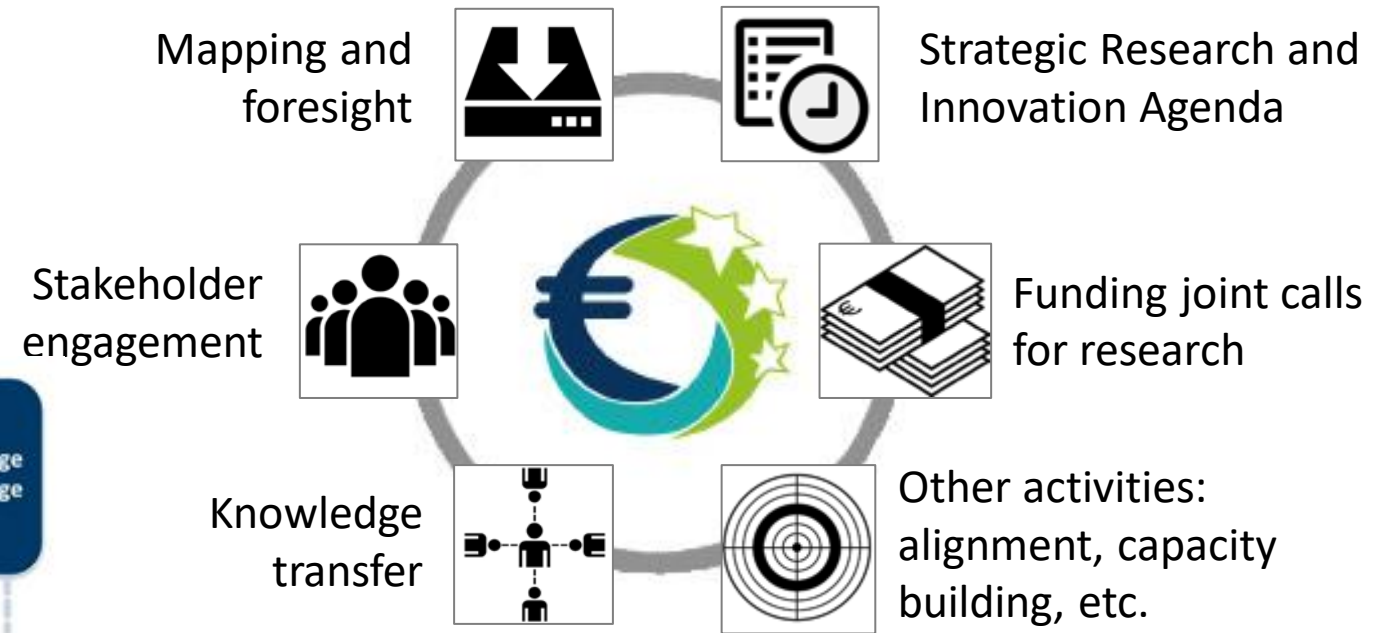

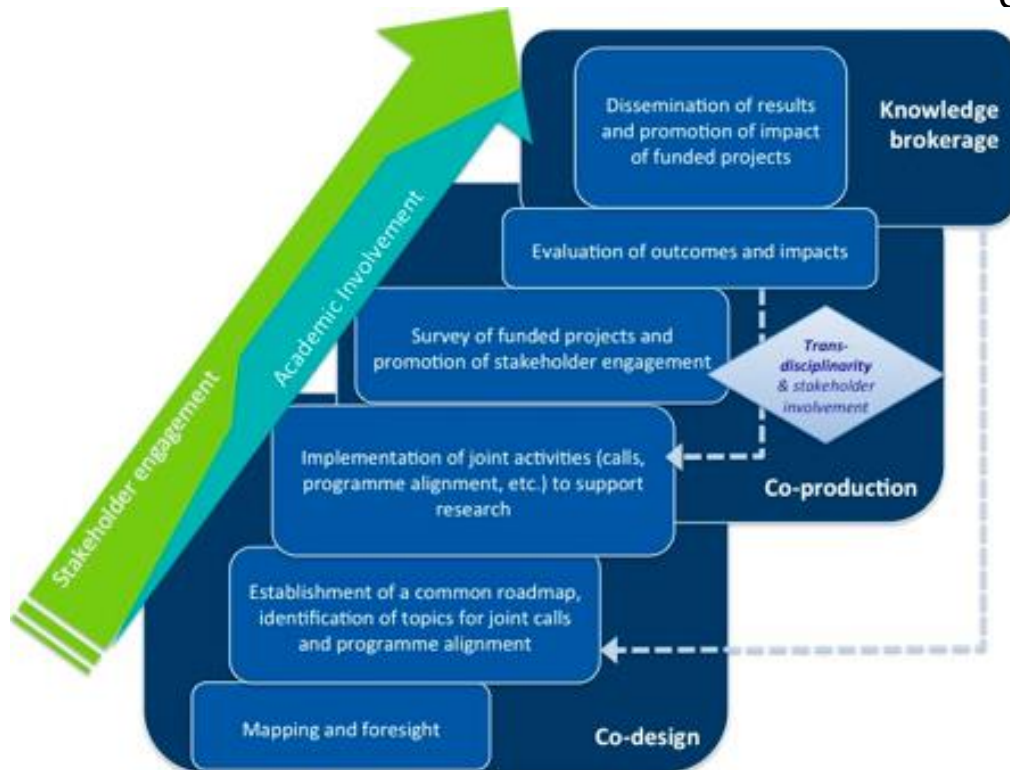

The Biodiversa evolution

...In terms of budget & EC support

The Biodiversa evolution

...In terms of activities

Building on the Biodiversa legacy...

The Biodiversa evolution

...In terms of activities

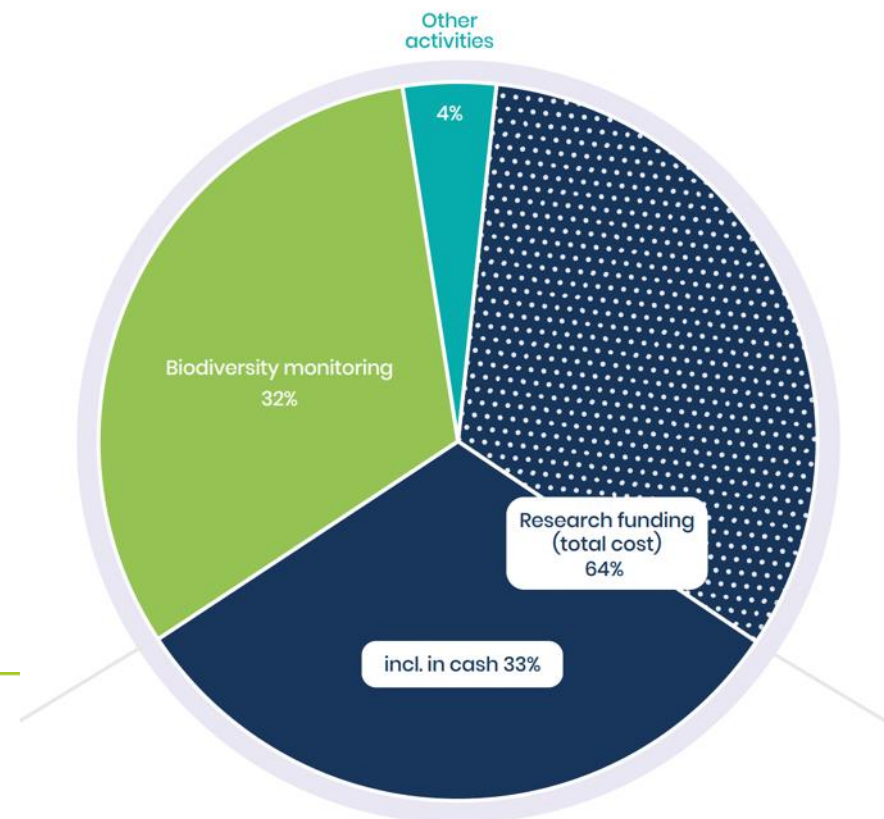

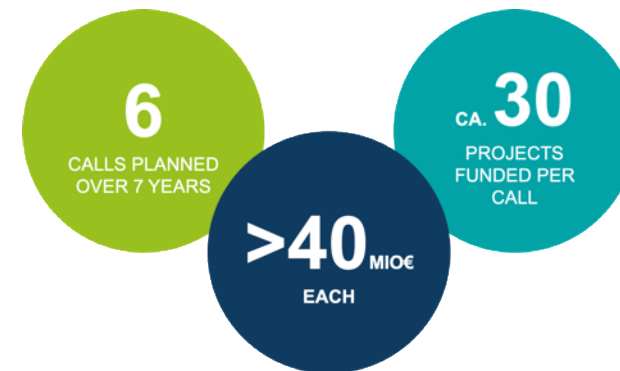

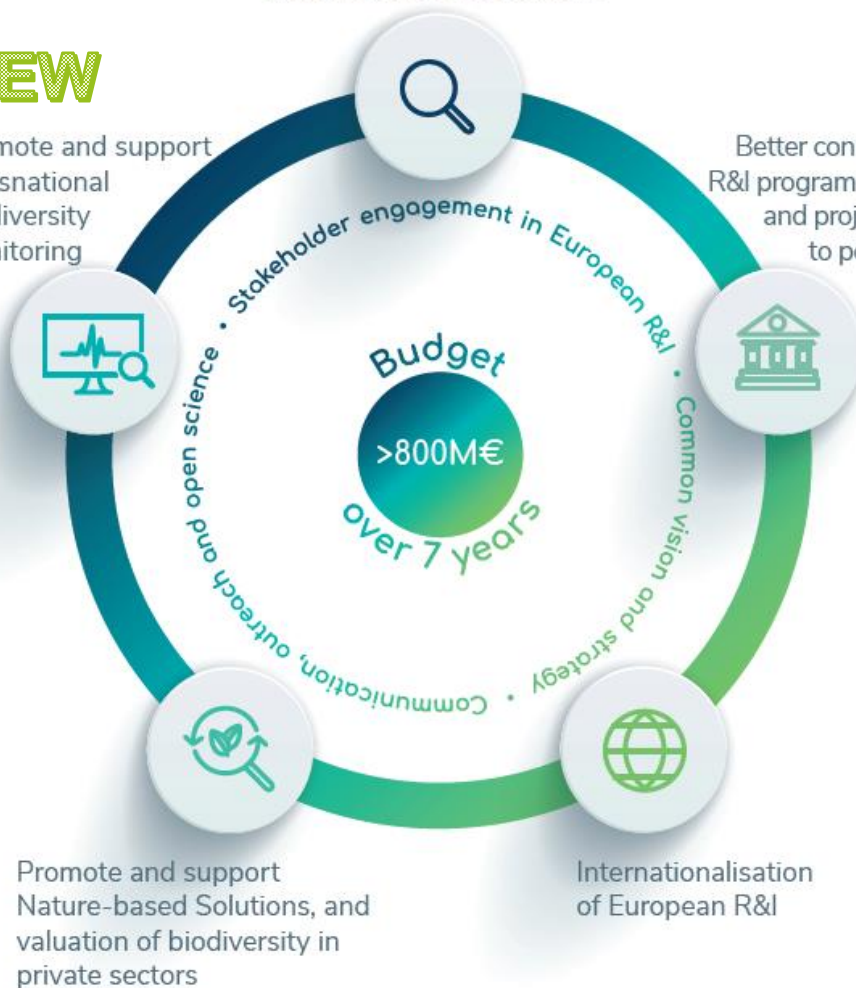

With a renewed ambition

NEW

Promote and support transnational biodiversity monitoring

Promote and support R&I programs and projects

Better connect R&I programmes and projects to policy

biodiversa+

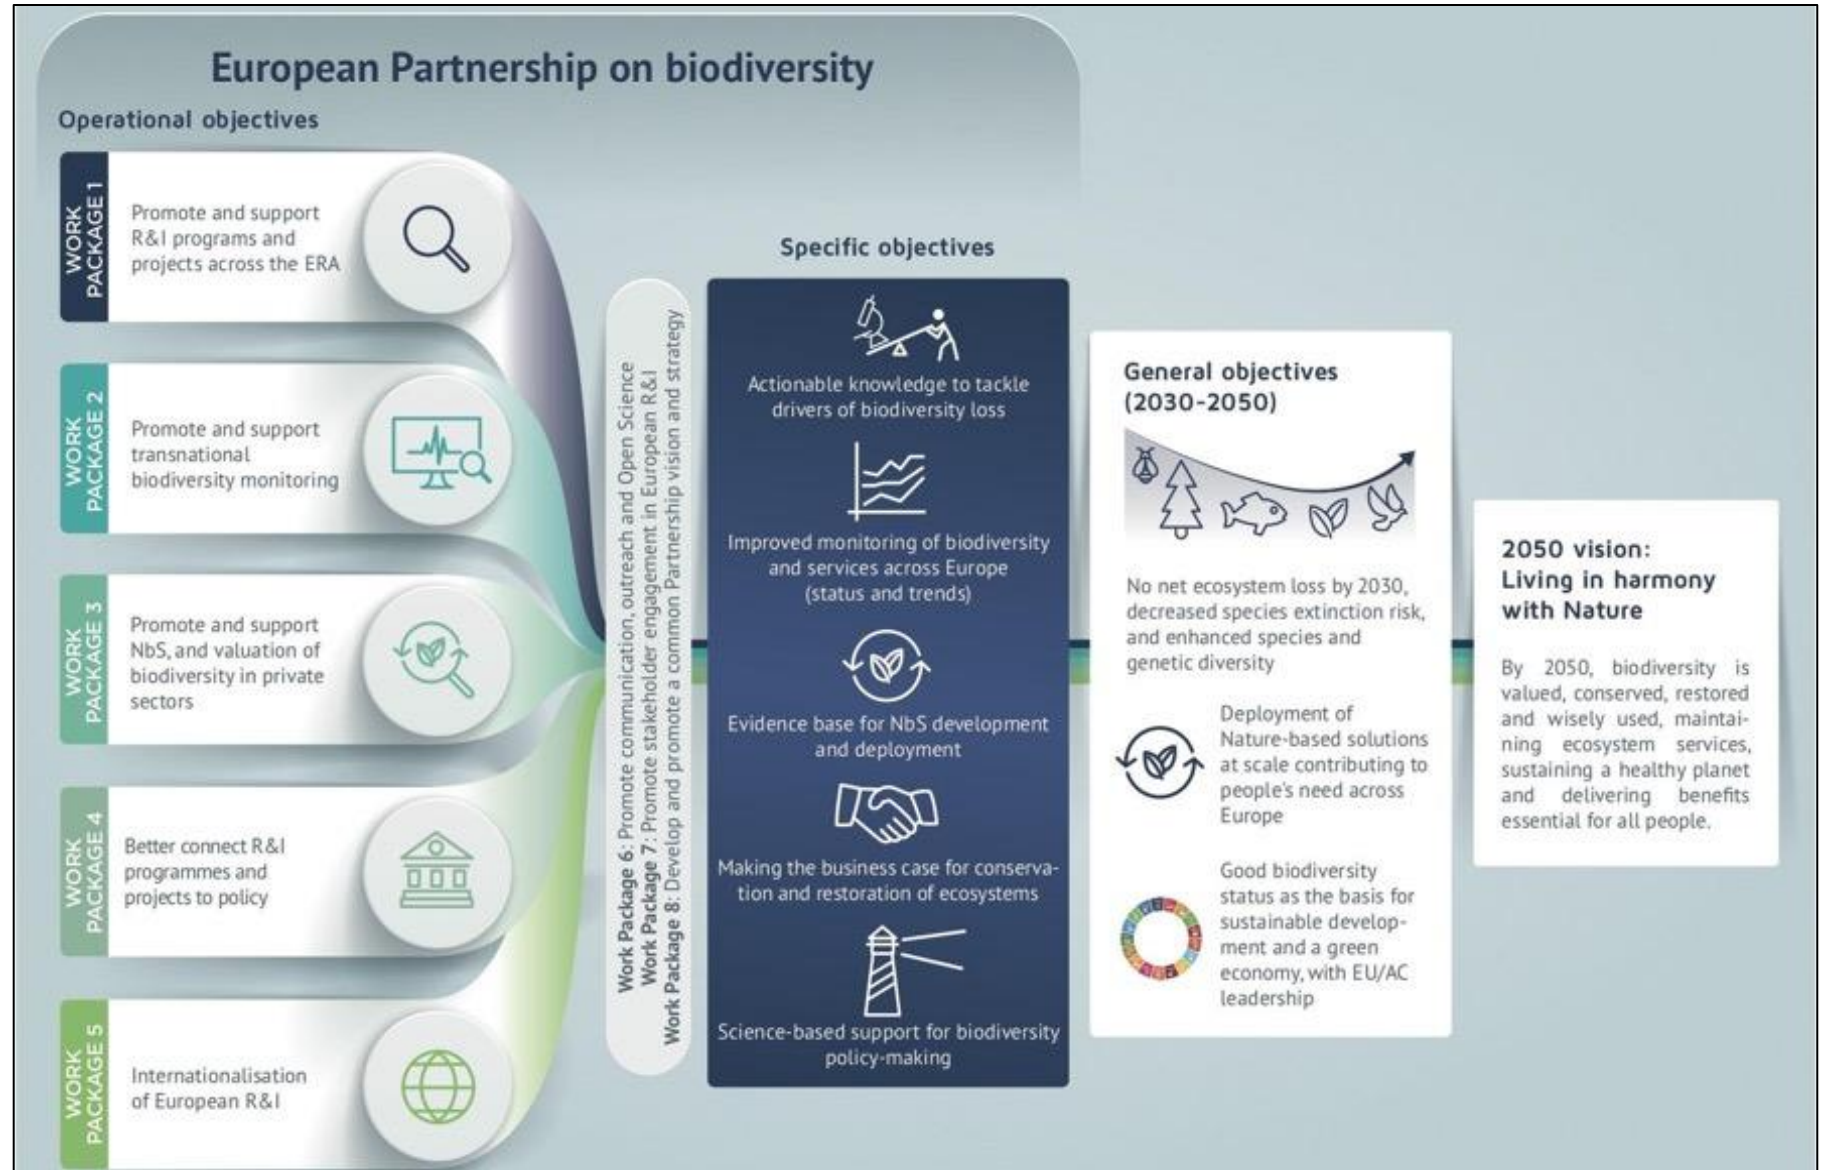

European Biodiversity Partnership

What are our objectives and missions?

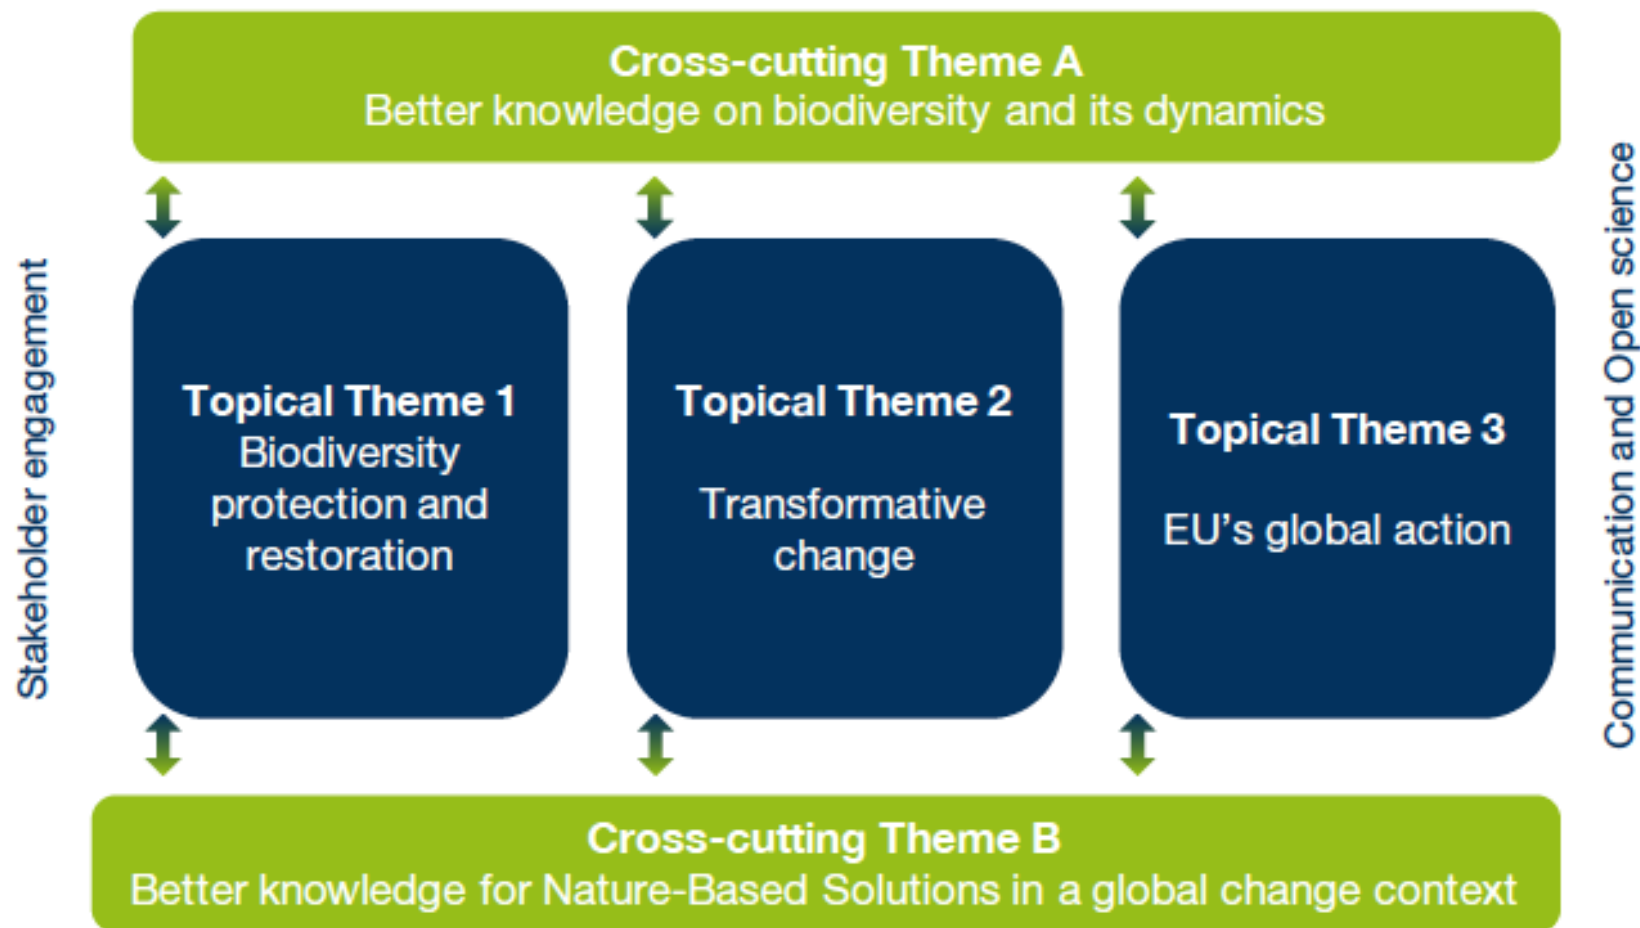

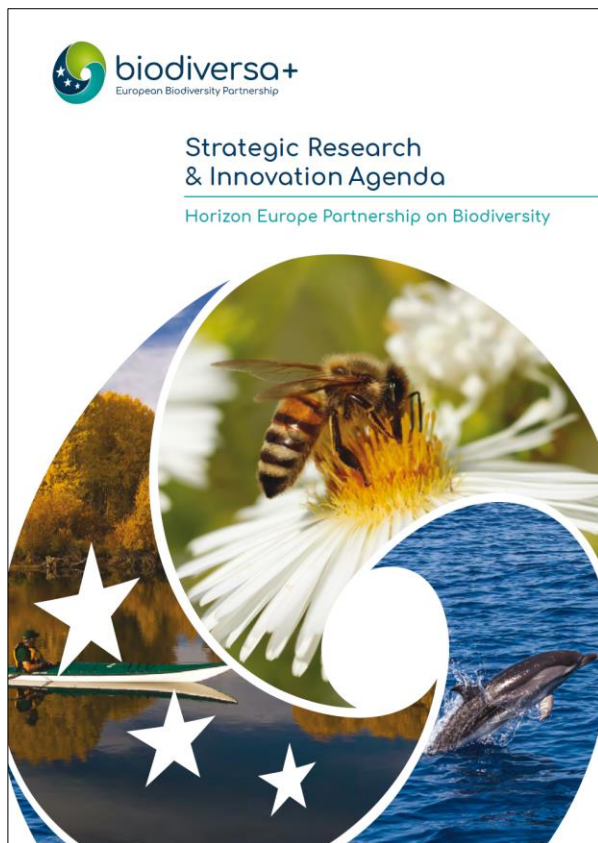

The Biodiversa+ vision

Aligned with the EU Biodiversity Strategy 2030:

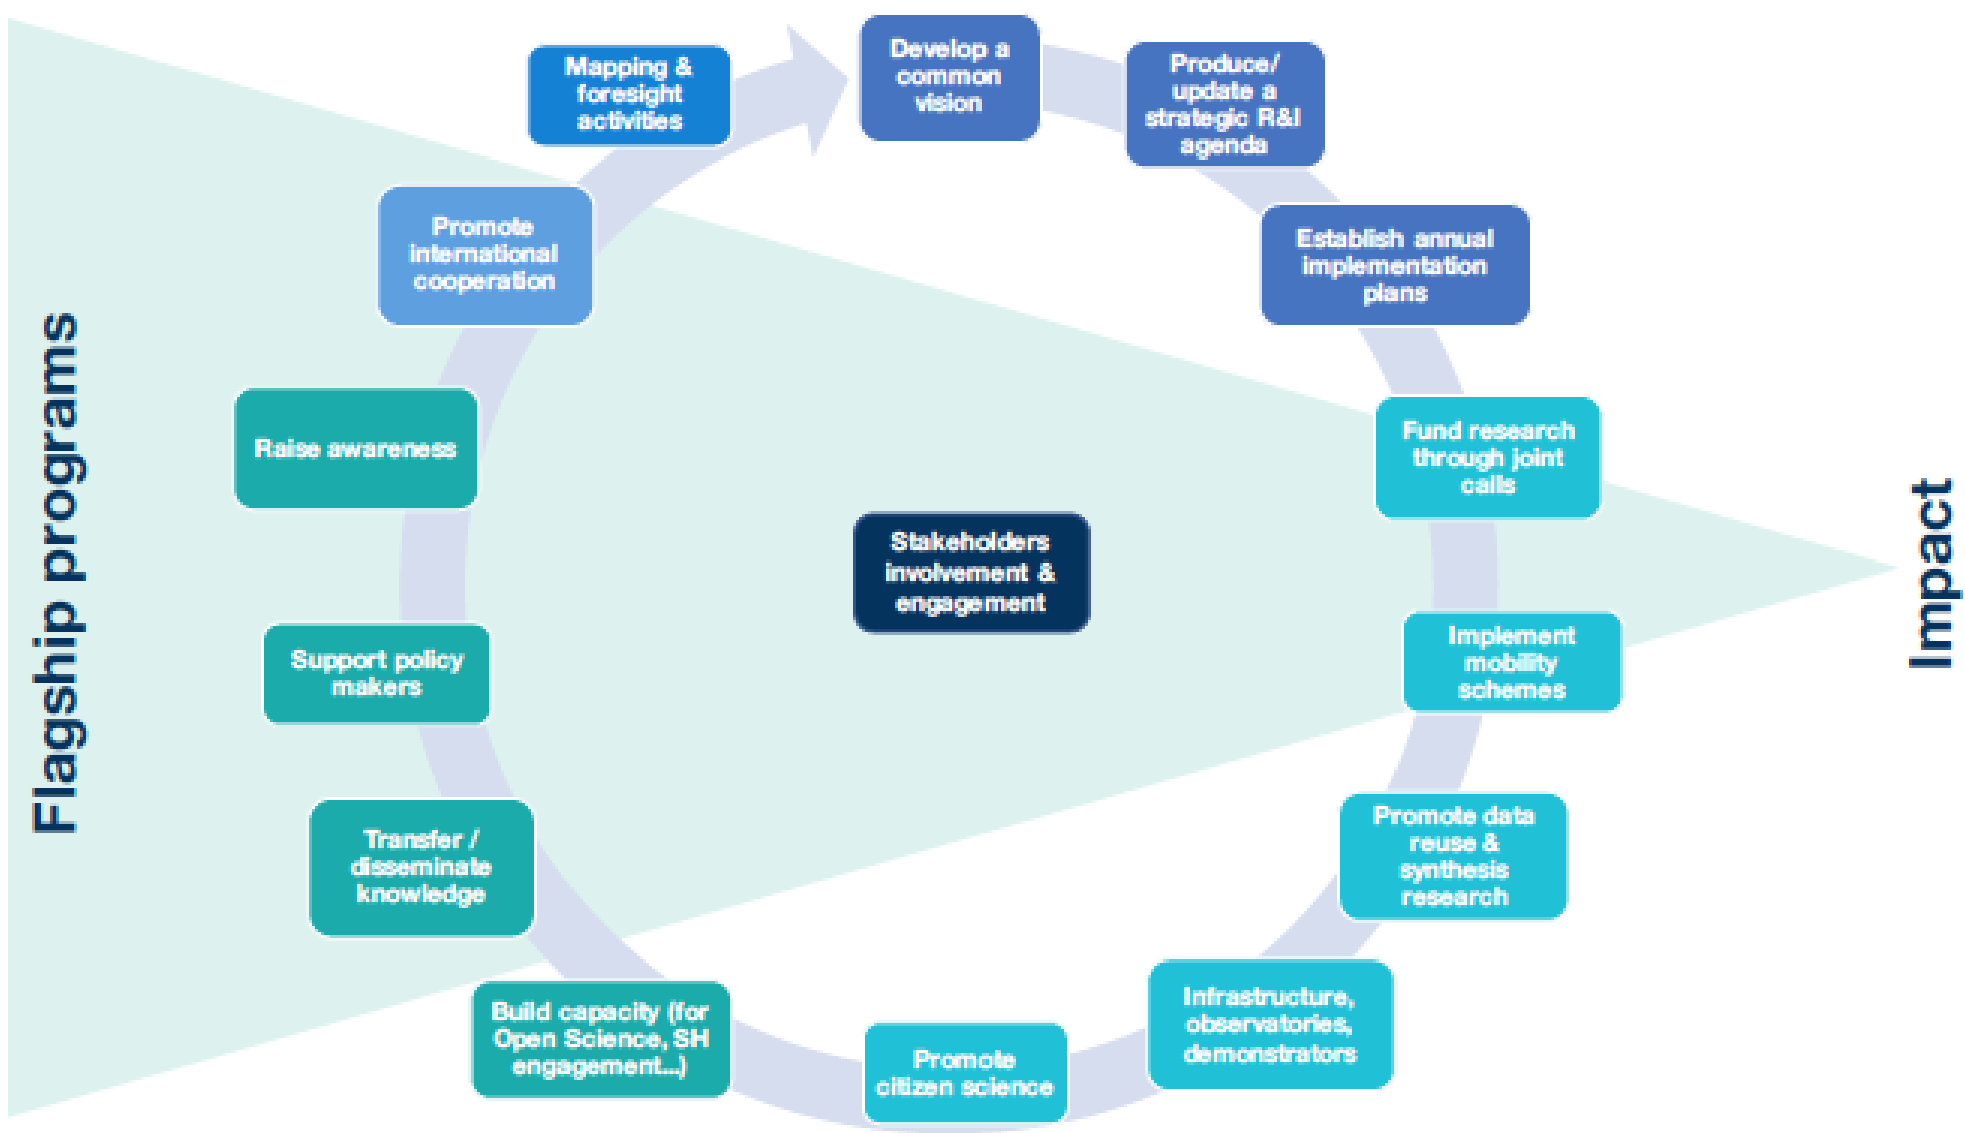

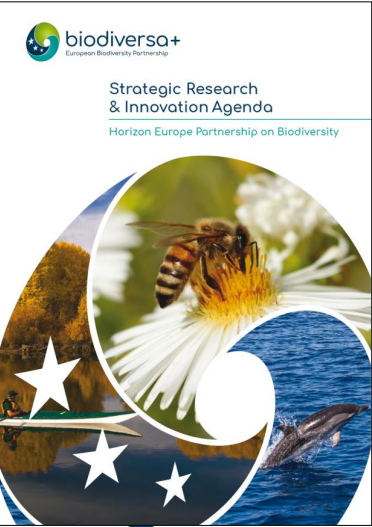

“... making the bridge between science, policy & practice...”

The Biodiversa+ Strategic Research & Innovation Agenda

The implementation of our vision

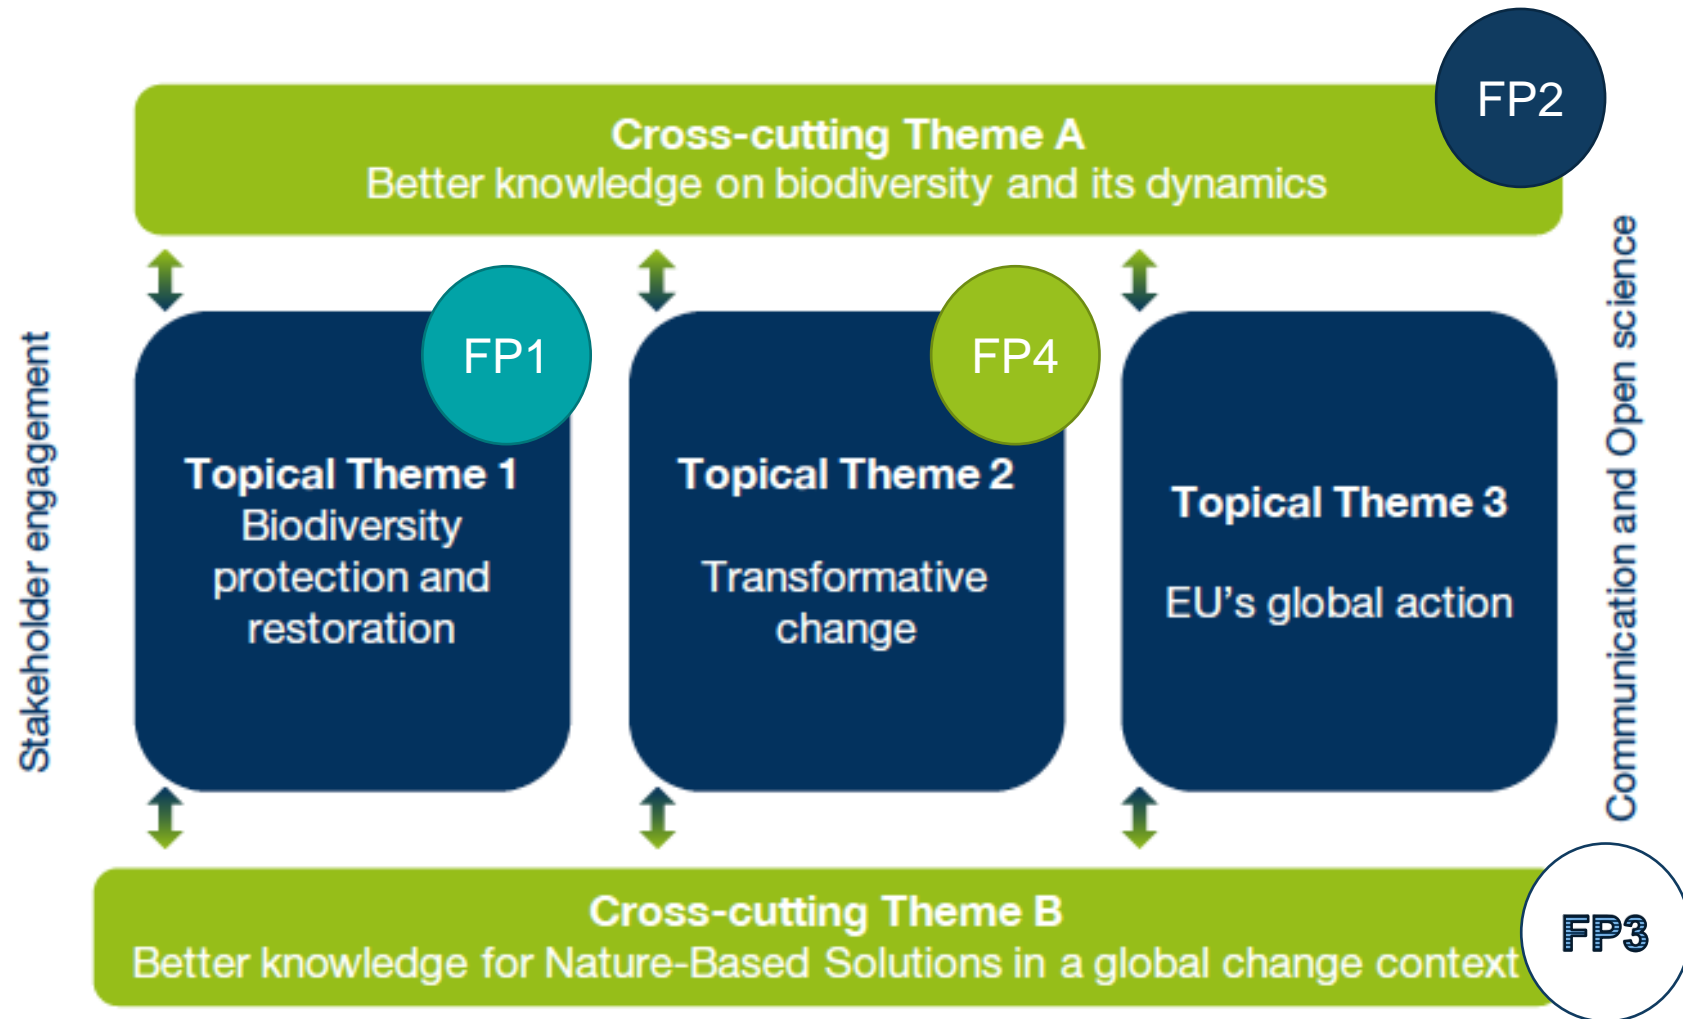

A portfolio of flagship programmes over the Biodiversa+'s life

6 to 10
flagship
programmes

- Multi-annual thematic programmes addressing a **particular biodiversity issue**
- Aligned with the themes identified in the **SRIA**
- Encompass a **portfolio of activities** relevant to the issues tackled and across the different Biodiversa+ work streams.
- Efficiency and impact of through **synergies and cross-linkages** between flagship programmes

A portfolio of flagship programmes over the Biodiversa+’s life

Launched in 2021

- Supporting biodiversity and ecosystem **protection** across land and sea
- Better transnational **monitoring of biodiversity** to better characterize, understand and report on biodiversity dynamics and trends

Launched in 2022

- Better knowledge to develop, deploy and assess **nature-based solutions**
- Supporting **societal transformation** for the sustainable use and management of biodiversity

In synergies and building on existing and new initiatives

... and many more!

biodiversa+

European Biodiversity Partnership

An overview of Biodiversa main achievements
since 2008

An improved collaboration across countries and territories

A successful mapping of the landscape of biodiversity research across Europe, and anticipating its evolution

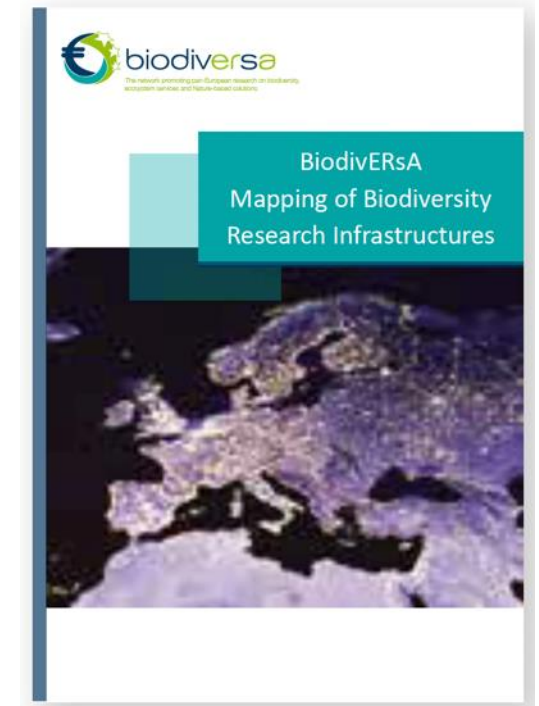

The Biodiversa database

for a comprehensive view on research programmes and projects within Europe

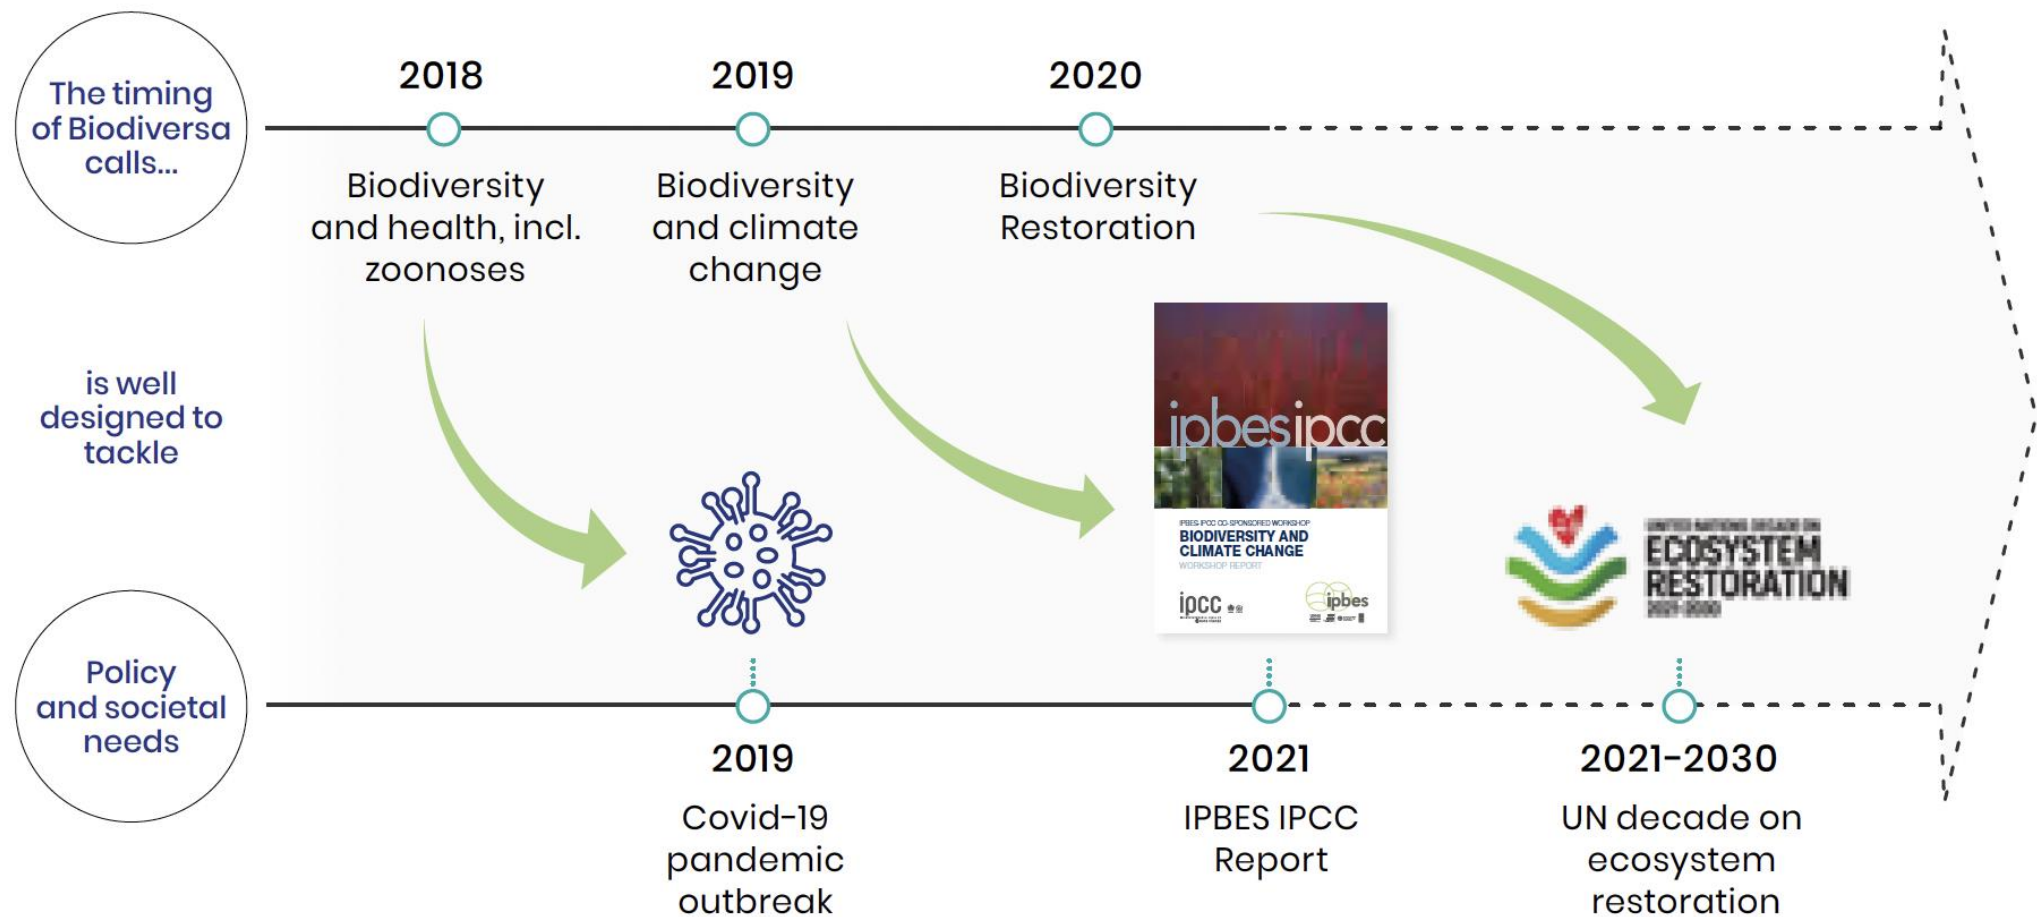

Mapping of international research collaboration

Mapping of biodiversity research infrastructures

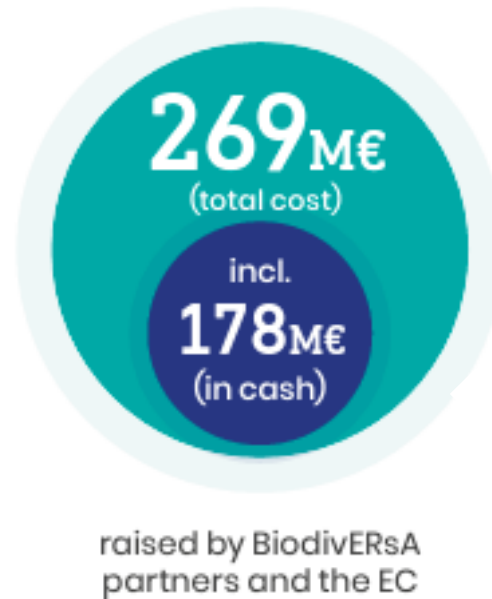

A R&I strategy supporting research in a timely manner for policy and society needs

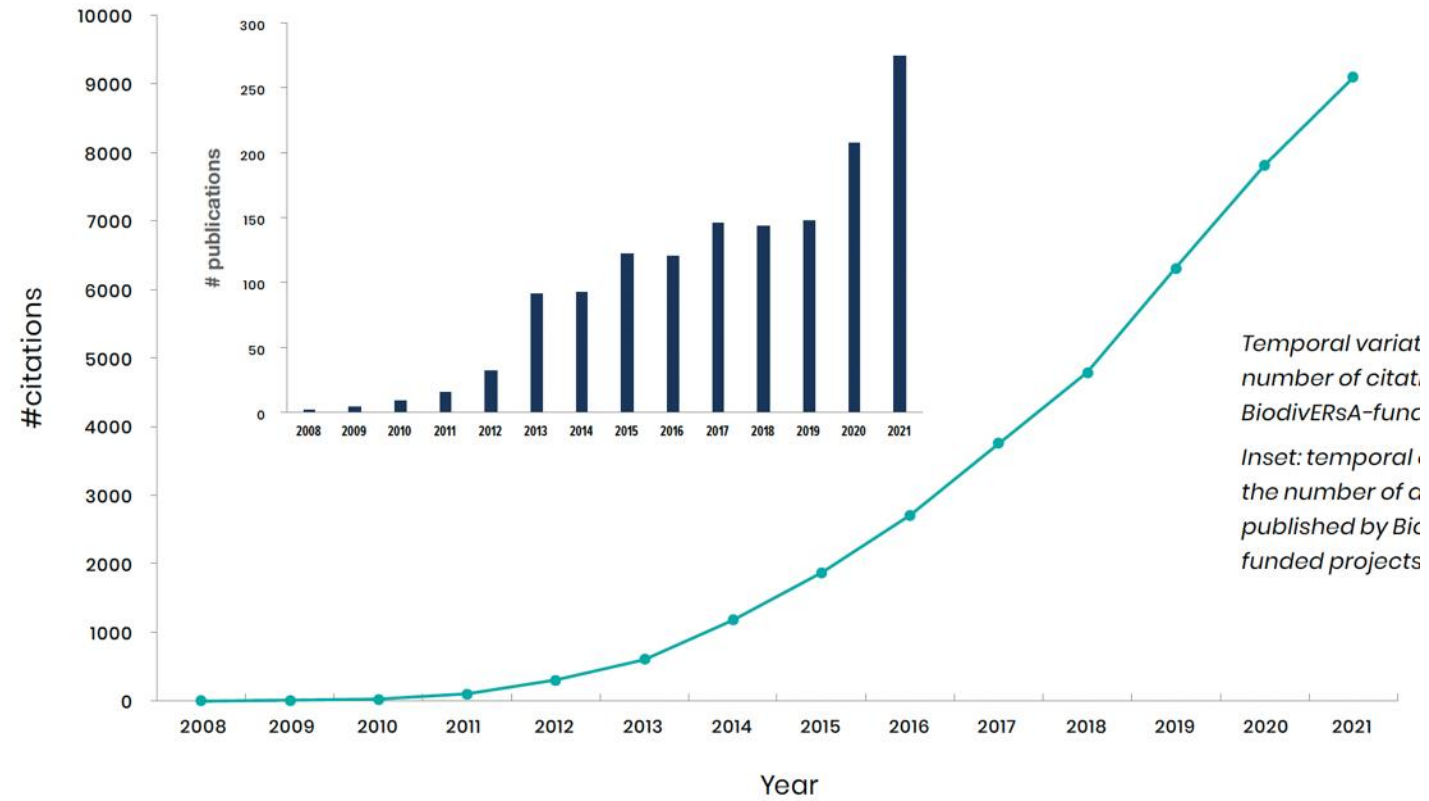

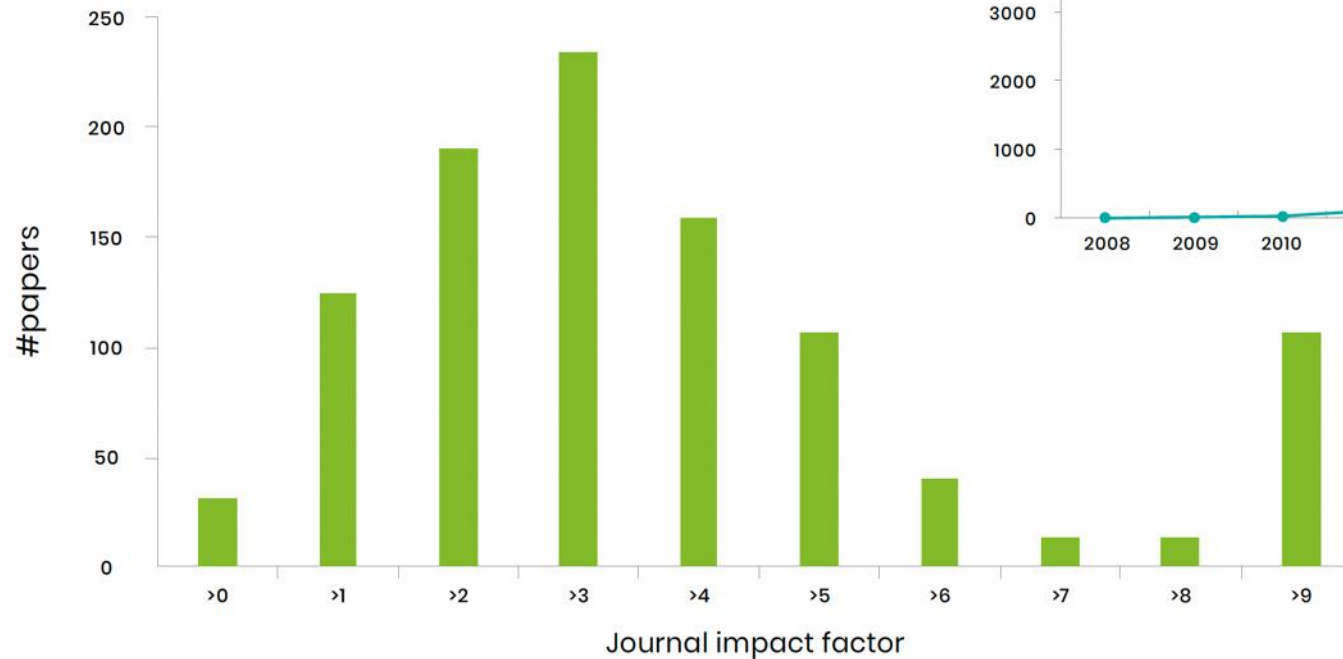

Major funding opportunities for scientifically excellent and societally relevant research projects.

Over 2008-2020

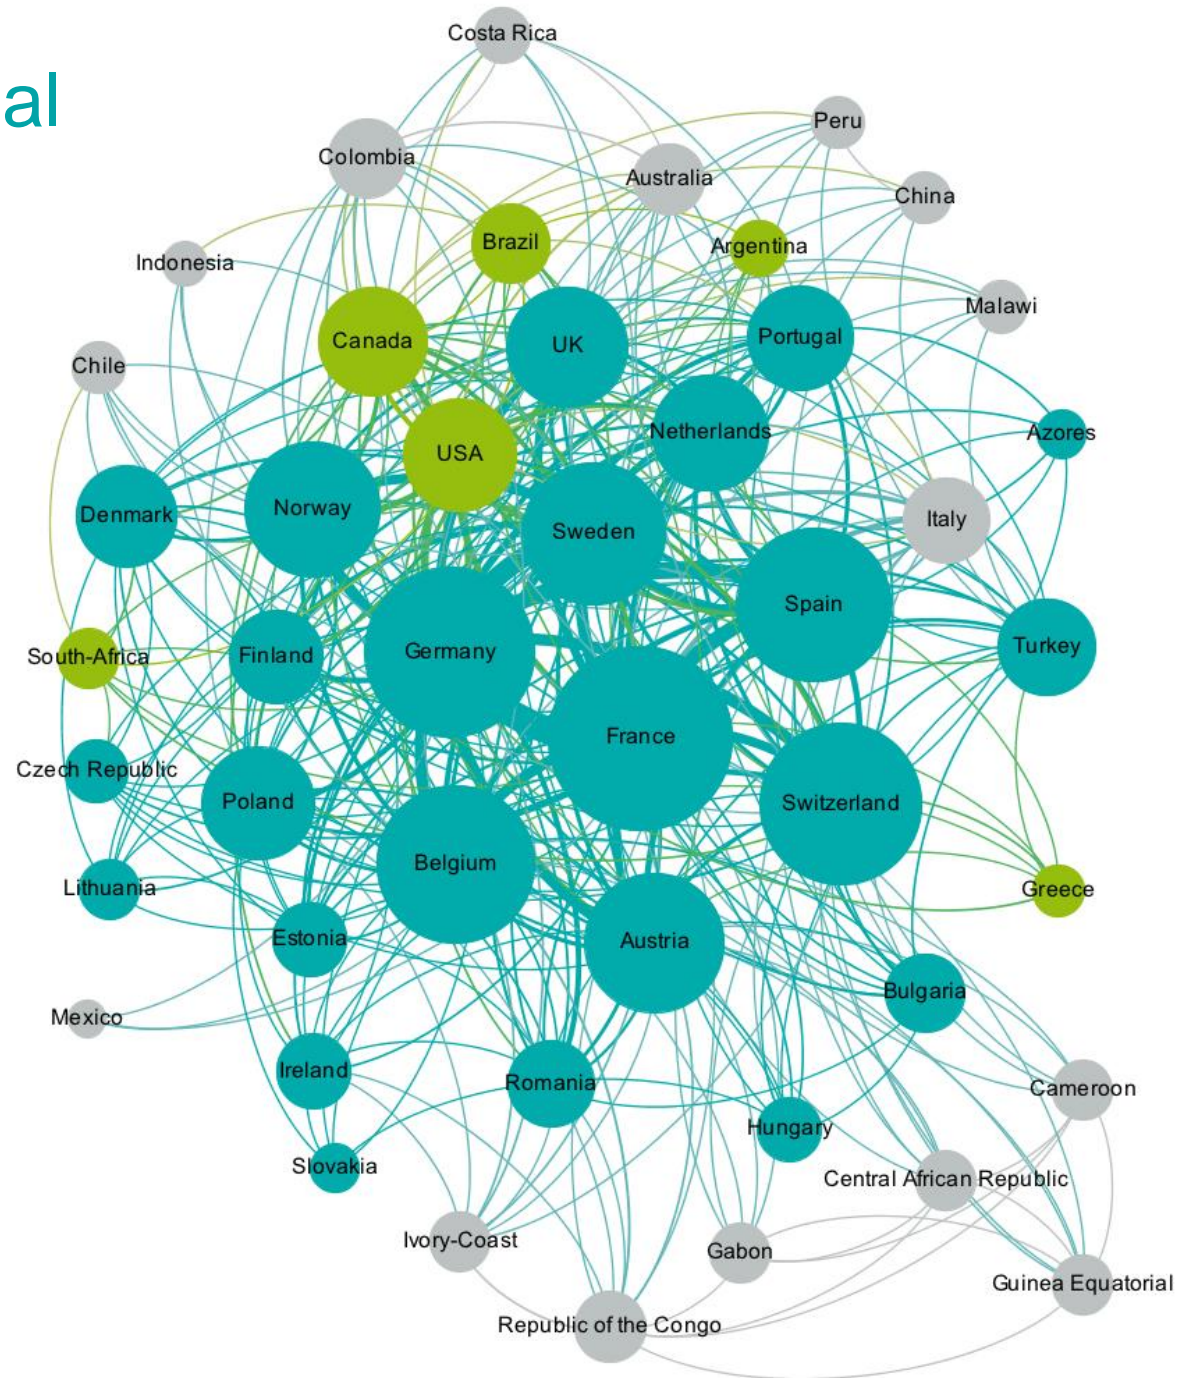

Biodiversa+ contributes to academic excellence...

- **> 1,300 peer-reviewed articles** to date
- Mean journal **impact factor > 4.8**
- Since 2021, **> 9,000 citation per year** of Biodiversa research

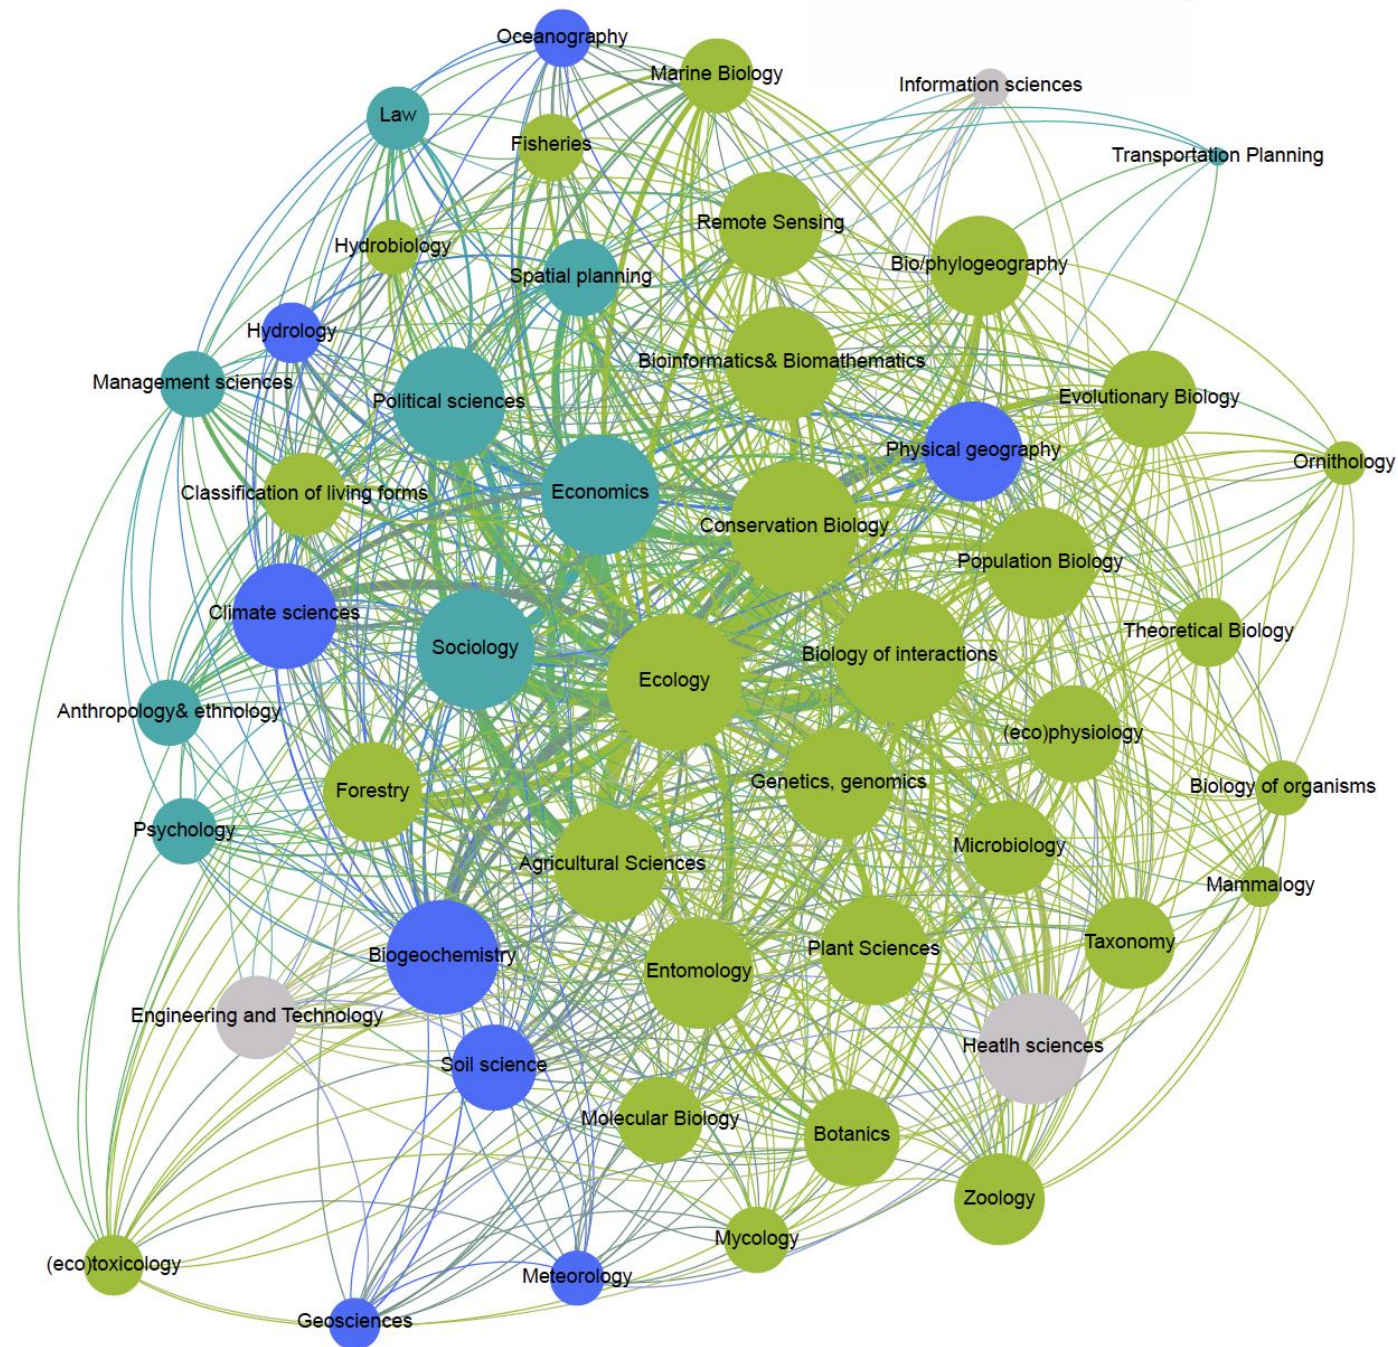

Biodiversa+ enhances international research networks...

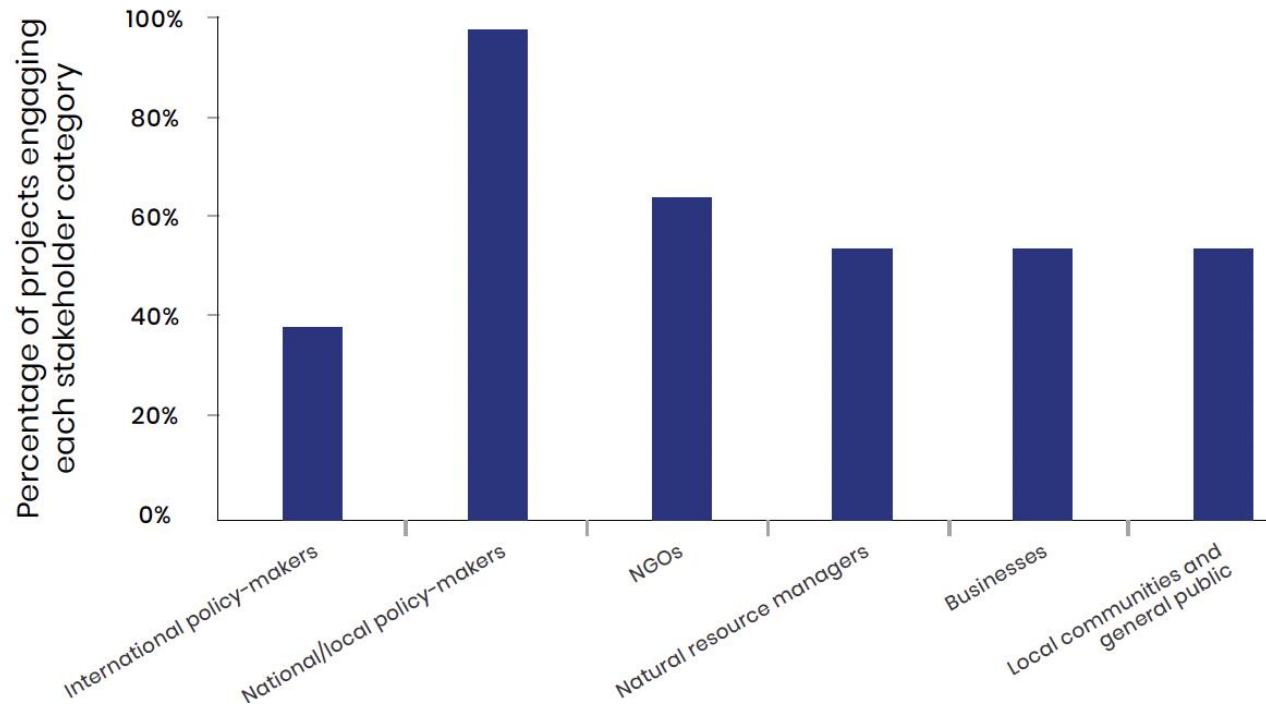

... and promotes transdisciplinary research...

- Life science
- Social sciences and humanities,
- Earth sciences
- Other disciplines

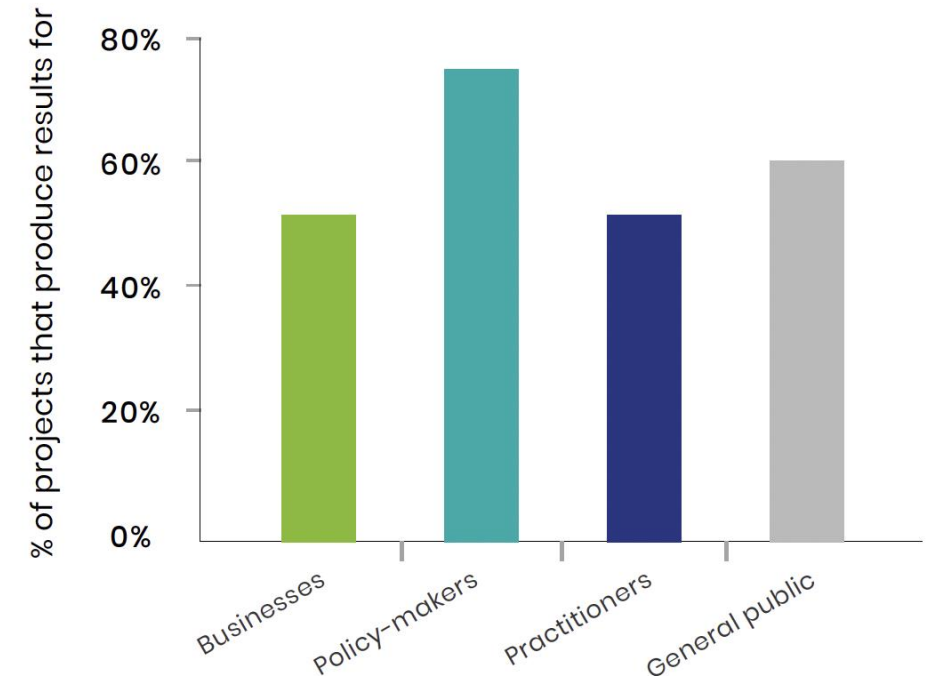

Biodiversa+ promotes a research co-implemented between researchers and stakeholders

90% of Biodiversa projects actively involve or collaborate with stakeholders

A research demonstrating societal and/or policy relevance

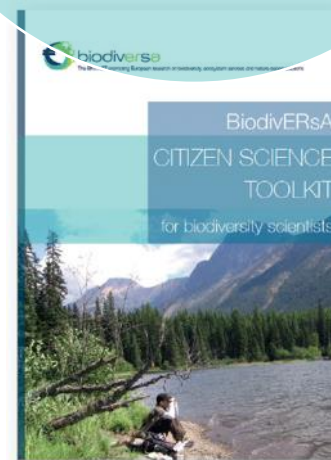

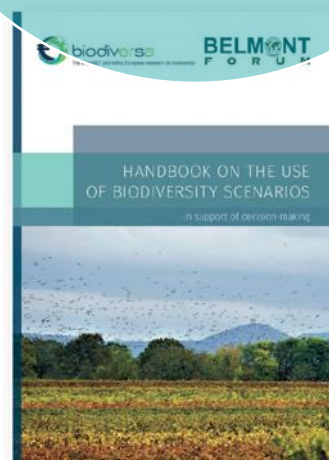

An efficient support to capacity building

Guides on
**stakeholder
engagement
& policy
relevance** of
research

Upcoming opportunities

Upcoming opportunities

Ongoing BiodivMon Research call on improved transnational monitoring of biodiversity and ecosystem change for science and society

- 8 Sept. 2022 | Official launch
- 9 Nov. 2022 | Deadline to submit pre-proposals

2023 Research call on Nature-based solutions

- Summer 2023 | Pre-announcement
- Ca. Sept. 2023 | Official launch

Our challenges

- Improve participation and success of **small research communities**
 - Improve mobilisation of **SHS**

A few other areas of discussion

- Opportunities to participate in Biodiversa+ open consultation (e.g. on our SRIA)
- Opportunities to participate in our events or workshops (open or upon invitation)
- Exchange and learn from your experience
 - For the promotion of early career researchers
 - To promote mobility schemes between research and the private sector
 - To enhance impact of research for policy and society

For more information

**Main
achievements**

for research on biodiversity,
ecosystem services and
Nature-based Solutions over 2008-2021

- 👉 **Subscribe to our mailing list**
 - Receive latest information, incl. on joint research calls
 - Contribute to our open consultation
